LYNX TELESCOPIC
WALL SYSTEMS™

WHY LYNX TELESCOPIC?

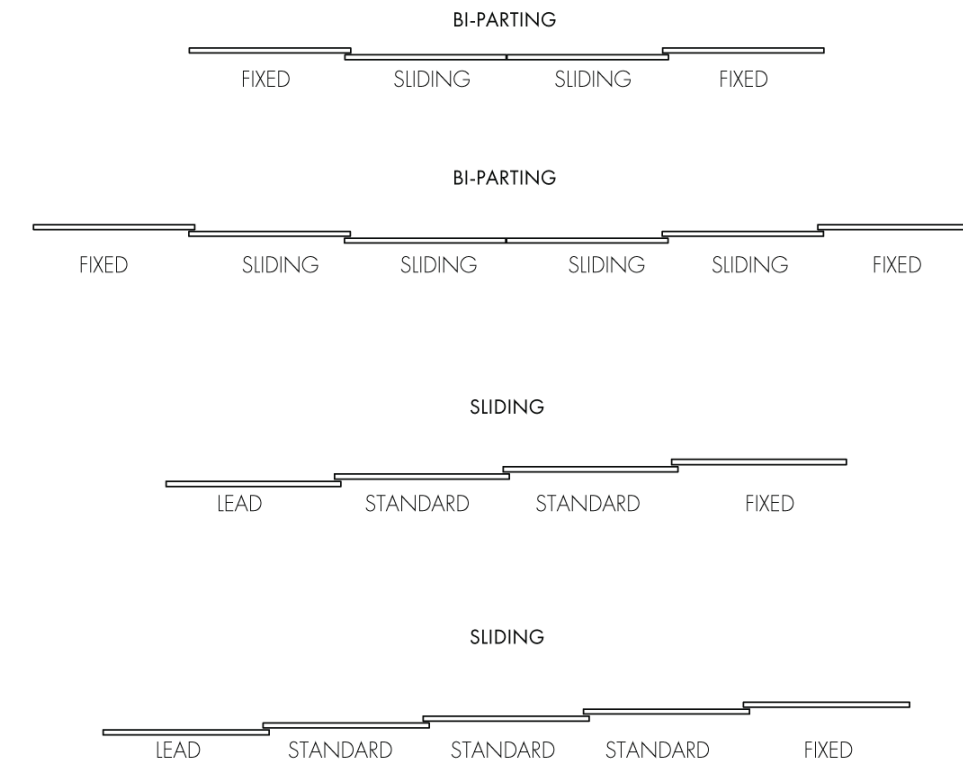

Proudly made in the USA by ZONA® Glass Wall Systems, LYNX TELESCOPIC is the premium, low-profile solution that delivers a consistent alignment and aesthetic across an entire space, allowing for design flexibility. This manual telescopic system is available in a variety of finishes, glass types and sizes and has 50% thicker aluminum wall profiles for unmatched system rigidity. Separate space in style with the smooth operating LYNX TELESCOPIC Wall Systems™.

- Consistent 1 1/2" Folding Frame Panels
- Single Glazed (STC 34-38)
- Aesthetic Consistency & Flexibility
- Customizable Powder Coating Finishes

THE FUTURE IS FLEXIBLE WORKSPACE
