# Why ZONA?

Honoring our commitment to communities and the planet we share, ZONA products are manufactured and installed by local skilled labor using the highest quality recycled content.

What makes ZONA special is 50% thicker aluminum profile walls for unmatched system rigidity, while maintaining a slender profile. All stress points are reinforced with steel bracing. ZONA Glass Wall Systems endured extensive testing for rigidity, load bearing, finish durability and sound transmission by certified labs.

With expert attention to detail, ZONA Glass Wall Systems combine thoughtful design and craftsmanship. Proudly made in the USA, this slender profile system delivers smooth finishes and high acoustical ratings.

## ZONA Slide

ZONA Slide systems offer space utility while maintaining slim lines. Our sliding door frames align with the horizontal and vertical frames of the fixed panels.

# Glass Types & Finishes

ZONA Glass Wall Systems can incorporate a variety of glass types to meet your specification and features level II anodized finishes for consistency and durability. Also available in hundreds of powder coated RAL colors.

- Tempered • Clear • Laminated • Low Iron
- Clear • Black • Light Bronze • Medium Bronze
- Switch Glass • Specialty Glass
- Dark Bronze • Champagne

# Door Styles

Whether you want them to slide or swing, ZONA offers flexible and innovative solutions for glass or wood doors. ZONA's glass doors are beautifully framed with no exposed glass edges for safety and aesthetics. Horizontal sash is also available.

ZONA also works with a variety of decorative and specialized hardware manufacturers to meet the requirements of every project.
